Documents distributed or Presentations at meeting:

Presentation on Goals and Indicators

Start Time:

4:15pm

Agenda:

-no formal agenda (due to only one CWG member being present)

Decision Points, Sticky Points and Other Important Notes:

- main interest is in having some monitoring in the Kispiox area communities again to gain a better understanding of where and when there are air quality problems
- Mary would be interested in volunteering to run a hivol (non-continuous sampler for particulate matter-runs for 24 hour period, usually every 6 days) in Hazelton
- Mary was also interested in WETBC woodstove workshop that WLAP is bringing to Hazelton (and other communities in Skeena Region)
 - she felt it would be very effective to have workshops on woodstoves for school children, who would then encourage adults to come as well
- thought having two monitors in Hazelton would be helpful (one at the old location and one at a second location)
- didn't think would be a problem to find other volunteers to help run hivol monitors
- would be good if there was an easy way to show adults and children the impacts from woodstoves on air quality ie. melt snow in tube and look at particles left behind on paper
- Kispiox participation idea-get list of dates and topics being covered by RWG and could then decide when to attend those meetings
- Gitamaax has tradeshow on reserve every year in late fall-good venue for displays
- Kispiox Music Festival also has booths
