If this is a heat pump installation and you are keeping the wood burning appliance as back up please complete this section (optional).

1. As the resident at \_\_\_\_\_  
I use roughly \_\_\_\_\_ cords of wood per year. The source for my wood is:\_\_\_\_\_. I burn mostly \_\_\_pine \_\_\_birch \_\_\_alder \_\_\_other\_\_\_\_mix
2. I will try to tell the BVLD AMS my annual cord usage for the next few years.
3. I commit to only using the wood stove under specific conditions (i.e., power outage and/or during cold weather when supplementary heat is required).

Signature \_\_\_\_\_

We provide the data on what you burn to the Province of BC and BC Lung Association. This will help in making estimates of Provincial emission rates and home heating wood or timber requirements.

Some final questions:

- If you are in the Town of Smithers - Did you provide a copy of your building permit for the new installation? Building Permit fees are waived.
- Did you attend the Burn It Smart workshop this year?
- Did you get operational and efficiency tips for your new appliance?
- Did you get a Building Inspection?
- Would you like to become a member of the BVLD AMS, a non profit society?
